

### Living Your Dream Testimonies

*"Both of us [Gayle and husband David] gained a greater insight and our perspective of the business was broadened to a new level of appreciation. We have much to think about and plan before we open a B&B, and Chloe has given us many useful suggestions on how to go about this to make it a success. I can hardly wait until I find the right location for my B&B. I am very appreciative to the people who made it possible. This weekend was truly 'Living my Dream'!"*

*"Running a B&B is truly what you make it and your success is dependent upon the efforts you put into it. It gives you free reign to decorate your home anyway you like, to serve the foods you want to serve when you want to serve them. This weekend has shown me that I can be creative and have fun staying home, and yes, do laundry, clean toilets, and cook but at the same time I can bring in some income to support myself and my family."*

*"I had heard about all the work "behind the scene" you have to squeeze into each 24 hour day. This weekend has given me a good idea of what a typical weekend brings in an innkeeper's life... brought "reality" into my life of things I had only read about, such as cleaning bathrooms, doing the laundry and the cooking."*

-Gayle Lucas  
Future B&B business owner
