

Martin Community College Key Student Completion Indicator
National Student Clearinghouse Six-Year Completion Rates^a – Two-Year Institutions

Table 1A. Overall: MCC Compared to National

Fall Term Cohort ^{b,**}	2014	2013	2012	2011
MCC Six-Year Completion Rate	37.9%	31.4%	33.99%	34.6%
National Six-Year Completion Rate	40.7%	41.2%	39.2%	37.5%
MCC Excellence	35.03%			
MCC College Average ^c	33.33%			
MCC Baseline	29.93%			

Table 1B. MCC Completion Rates by Gender

	2014	2013	2012	2011
Female	41.47%	39.48%	40.52%	41.7%
Male	32.14%	21.43%	24.01%	20.6%

Table 1C. MCC Completion Rates by Race/Ethnicity

	2014	2013	2012	2011
Black	33.42%	26.67%	11.91%	Not available
Hispanic		50%		Not available
White	43.76%	31.59%	42.86%	Not available

Table 1D. MCC Completion Rates by Age at First Entry

	2014	2013	2012	2011
<=20	50.10%	34.21%	48.65%	44.97%
21-24	30.85%	30.77%	6.74%	23.98%
>24	13.34%	26.69%	32.86%	27.91%

Notes:
^a Completion defined as receipt of any post-secondary credential within six-years of the first semester enrolled at the same or differing institutions.
^b Fall-term cohort is defined as all first-time degree-seeking students, excluding current dual-enrolled students.
^c In keeping with the NCCCS State Performance Measures methodology of defining baseline and excellence levels, the MCC baseline is calculated as two standard deviations below the mean and the excellence level is calculated at one standard deviation above the mean. The baseline and excellence levels will be determined based on the previous three years of data.
****MCC's fall cohorts for 2015, 2016, and 2017 fell under the NSC requirement of 50 students for data to be published.**
