

Launch a firefighting career or develop your firefighting skills!

Starting salaries for career firefighters average \$30,000 - \$35,000 per year. Most state and local government firefighters work 10-12 days per month and earn excellent benefits.

For additional information, contact MCC's Fire Training Coordinator, Larry Johnson, at larry.johnson@martincc.edu or (252) 789-0205

BGCS Students are invited to jump start their career in MCC's Fire Academy!

Martin Community College Bear Grass Charter School Fire Academy

A program designed to prepare future fire and rescue workers for NC Firefighter Certification while simultaneously earning transferrable credits toward a degree in public safety!

Martin Community College Fire Academy for BGCS

Starts August 2021

What's required...

- The program will last one school year.
- You must be 16 years old and have a GPA of at least a 2.9 to apply to the program.
- Classes will be everyday from 12:30 to 3:00 p.m.
- You will have one 40-hour class to take after graduation from high school to obtain your N.C. Fire Fighter Certification.

First Graduates of MCC's Fire Academy 2020

**Martin Community College
proudly serves these
Fire Departments**

**Build on your High School
Fire Academy training!**

***Earn your NC Firefighter
Certification and an AS
degree at MCC, then trans-
fer your credits to a Public
Safety degree program!***

***Add MCC EMS (Emergency
Medical Service) training to
your credentials!***

Most career Fire Departments require credentials in EMS procedures. After completing the Fire Academy, you can immediately begin EMS training.

Martin Community College is committed to an environment that embraces diversity, respects the rights of all individuals, is open and accessible, and is free of harassment and discrimination.
