

## **Hybrid curriculum classes available at MCC's Windsor Campus starting September 16!**

### **Writing and Inquiry**

**ENG 111**

**M & W, 9:30 - 10:45 a.m.**

This course is designed to develop the ability to produce clear writing in a variety of genres and formats using a recursive process. Emphasis includes inquiry, analysis, effective use of rhetorical strategies, thesis development, audience awareness, and revision. Upon completion, students should be able to produce unified, coherent, well developed essays using standard written English.

### **Math Measurement and Literacy**

**MAT 110**

**M & W, 11 a.m. - 12:15 p.m.**

This course provides an activity-based approach that develops measurement skills and mathematical literacy using technology to solve problems for non-math intensive programs. Topics include unit conversions and estimation within a variety of measurement systems; ratio and proportion; basic geometric concepts; financial literacy; and statistics including measures of central tendency, dispersion, and charting of data. Upon completion, students should be able to apply to demonstrate the use of mathematics and technology to solve practical problems, and to analyze and communicate results.

### **Introduction to Computers**

**CIS 110**

**M & W, 12:30 - 1:45 p.m.**

This course introduces computer concepts, including fundamental functions and operations of the computer. Topics include identification of hardware components, basic computer operations, security issues, and use of software applications. Upon completion, students should be able to demonstrate an understanding of the role and function of computers and use the computer to solve problems.
