Becoming a Veterinary Assistant is a rewarding career in a growing field. As a Veterinary Assistant you can work with animals and be part of a professional veterinary staff, nature center, wildlife center, or animal sanctuary. The course prepares students to assist and support licensed Veterinary Technicians and Veterinarians in the health and handling of small domestic animals and exotic species.

Learn how to interact with animals and their owners, obtain animal health histories and records, understand veterinary medical terminology, recognize the major breeds of various animals, assist the Veterinarian with caring for animals, assist with surgical and treatment procedures, recognize signs and symptoms of illness and disease, and perform administrative duties in the Veterinarian office.
