

Martin Community College COVID-19 Policy and Procedures for Students

MCC will be moving forward with their regularly scheduled Fall Semester as planned with the following modifications:

- Traditional classes will include a web component to reduce the amount of time students are on campus. This means that all courses will require some online course work through our LMS Moodle and through some publisher web-sites. Web-based requirements may include the submission of assignments, quizzes, and tests. Utilizing this option will prepare the students and instructor if we are forced to go fully online later in the semester.
- Courses with required hands-on laboratory education will limit the number of students within the space and create a workable lab schedule to ensure students are able to stay six (6) feet apart. No classroom nor lab space will exceed 50% capacity.
- Masks will be worn while inside all campus buildings.
- Frequent handwashing and use of hand sanitizer will be highly encouraged in all classroom and laboratory spaces.
- Classrooms and labs will be arranged to provide appropriate social distancing.
- Students and/or staff who have come into direct contact with known infected persons will quarantine themselves for 14 days.
- If a student has been diagnosed with COVID-19, they must text the COVID-19 helpline at 252-802-6116 and leave a name and number and you will receive a return call to discuss appropriate next steps.
- No one may return to campus until they have been symptom free for at least 48 hours.
- Students and staff who have tested positive for COVID-19 must quarantine from the campus for at least 10 days. Once the college is notified of the positive test, the College will clean the affected areas, notify the local Health Department, and communicate with campus employees who may have been directly affected by the person.
- Students who are not able to complete online classes or who do not wish to be face-to-face in a lab setting are encouraged to postpone their educational goals until such time they determine it to be safe for themselves to re-enter the college setting.
- Students who knowingly come to campus without meeting the criteria to return are subject to disciplinary action.

This is an abbreviated version of the information found on the following web page: <https://www.martincc.edu/help-health>
